

YMD ELECTROMAC PVT. LTD.

B-138, SECTOR – 6 NOIDA 201301

TEL: 0120-4283804, EMAIL: info@yaminimd.com

WELCOME TO YMD FAMILY!

Offering reliable and durable range of Laminated Transformers, Low Voltage Transformers, Transformer Chokes, EE Choke, Ferrite Choke, ET Inductor, EE Line Filter, and SMPS Transformers, Power Choke Coils, Ferrite Coil Inductor, Drum Coil, etc.

About Us

YMD ELECTROMAC PVT. LTD (Formally Known as YAMINI MAGNETIC DEVICES)

One of the major manufacturers, exporters and suppliers of high end electronic components in Delhi-NCR, YMD came into existence. Since 2008, the company has been catering to the demands of Electrical Line Filters, SMPS Transformers, Power Choke Coil, Ferrite Coil Inductor, Drum Coil, and so on. Backed with the knowledge and skills of the owner of the company, Mr. Yatindra Agarwal and Mr. Sumit Dutta Agarwal, we have reached the heights of success. We are a reckoned name in the sector of electrical products offering technically advanced, durable and high performing range. With a highly trained team of professionals, we have been offering optimum quality products designed from the superior quality raw materials. Our engineers, technicians and electrical product experts have years of vast knowledge and expertise in the respective domain making us able to match the demands of the clients with customized solutions.

Owing to a state-of-the-art manufacturing unit, we have been ensuring to deliver advanced and latest technology products having user-friendly features and longer service life. Located in Noida (U.P), our manufacturing unit is loaded with high technology machines and tools to make sure of error-free production. In addition to manufacturing unit, we have a well-equipped warehousing facility to store the products safely and meet the bulk demands of the clients.

"We are mainly dealing with bulk quantity order inquiries & accept minimum order quantity of 50000 pieces."

Quality Conformation

Quality is the main objective of our company. Since the inception, we have been working hard to provide our esteem clients with optimum quality products at best prices. Moreover, we ensure to use only finest grade raw materials in the making of our Voltage Transformers, Transformer Chokes, etc. All these comply with the set industry standards as well as international quality norms. We also have with us a team of quality controllers who test the manufactured range on the basis of:-

- Design accuracy
- Finishing
- Corrosion resistance
- Durability

Products Offered

Our company is involved in manufacturing, wholesaling, distributing and supplying a wide range of electrical components and allied products. We design all our products in accordance to the industry safety standards as well as quality norms. We offer:

Voltage Transformers	
Laminated Transformers	Low Current Transformer
Toroidal Current Transformers	Voltage Transformers
Low Voltage Transformers	SMPS Transformers
Transformer Chokes	
EE Choke	Electronic Choke
Ferrite Choke	Toroidal Choke
E I Choke	
Industrial Inductors	
ET Inductor	Toroidal Inductor
EE Inductor	
Line Filters	
EE Line Filter	Toroidal Line Filters
E T Line Filter	
Ferrite Core Transformers	
Ferrite Core Chokes	Ferrite Core Coils
Common Mode Choke	Ferrite Core Transformers
Ferrite Core Inductors	
Ferrite Core Toroid Chokes	
Ferrite Core Toroid Chokes	Toroidal Choke
Ferrite Rod Choke	
Coil Inductor	
Drum Coil Inductor	
Line Filter	

Features of Our Range

Some of excellent features of our products that add to their market demands are as mentioned below:

- **User friendly**
- **Fine surface finishing**
- **Cost effective**
- **Accurate designs and highly reliable**

Infrastructure Facility

We have established a state-of-the-art infrastructural facility spread over a wide area to design quality Transformers, Electrical Line Filters, SMPS Transformers, Power Choke Coils, Ferrite Coil Inductor, Drum Coil, and so on. Our infrastructure is divided into varied departments like production, research, testing, storage, packaging, sales and marketing. All the departments are installed with varied requisite machines to make sure reliable as well as smooth processing. We have recruited a team of professionals to manage these units and machines. From time to time, they upgrade the machines to maintain the maximum rate of production.

Quality

We have been able to attain a reputed position in the market due to unmatched quality standards of the products. We design the collection from the superior quality raw material as per the global quality norms. We have developed a separate fully fledged quality control unit that is equipped with modern testing machines to test our products on the following parameters:

- **PD measurement**
- **Durability**
- **Loss measurement**
- **Voltage regulation**
- **Resistant to wear**

Team of Experts

With the support of our well trained and experienced team, we are able to fulfil the challenging demands of our clients on time. Our workforce is the strongest pillar of our organization. We have appointed some of the best industry personnel to assist us in bringing forth advance range of Laminated Transformers, Low Voltage Transformers, Transformer Chokes, EE Choke, Ferrite Choke, ET Inductor, EE Line Filter, etc.

Our team comprises:

- **Engineers**
- **Quality inspectors**
- **R&D personnel**
- **Skilled workers**
- **Sales and marketing professionals**

"We are mainly dealing with bulk quantity order inquiries & accept minimum order quantity of 50000 pieces."

Why Choose Us?

Excellent after sales services, repair and maintenance are being provided to acquire the satisfaction of our valued customers. All our tables can be viewed at our premises that help you to make a right decision in choosing tables. Being the customer specific organization, we are making constant efforts to make our customers fully satisfied. There are various reasons why our customers choose our services. These are:-

- **Customer satisfaction**
- **Affordable rates**
- **Prompt services**
- **Quality of products**
- **Huge clientele**

Good market reputation
Team of competent and proficient professionals
Competitive pricing policy
Premium quality product line
Ethical business policies and fair deals
State of the art manufacturing unit
Total quality control management

Company Profile

We are counted among the prominent manufacturers, exporter and suppliers of technically sound electronic components in Delhi-NCR. We have been offering high quality range of Electrical Line Filters, SMPS Transformers, Power Choke Coils, Ferrite Coil Inductor, Drum Coil, and many more. Our products are designed from the advanced spares and parts to add durability, strength and longer functional life to them. We have been developing products in varied specifications and dimensions to ensure to suit all the needs of the clients. With low power consumption, noiseless operations and no maintenance cost, we have been providing complete satisfaction to the clients.

Business Type Exporter , Manufacturer , Supplier

Transformer

Choke Core Transformer

Product Description

We are among the leading manufacturers and suppliers of LED transformers, and produce transformers of different load capacities. These transformers are designed, engineered and integrated with extreme precision and stringent testing is conducted to ensure perfect functioning. All the parts and components used for fabricating these transformers are procured from credible vendors only. We provide different models and configurations of transformers so that respective requisites of the different clients are met effectively.

Our range has gained application and appreciation from distinctive industries and has delivered outstanding performance in respective usage. The price range of these transformers is market-competitive and reasonably set for our clients.

Quality, perfection, professionalism and customer satisfaction are the factors, we always keep in consideration while manufacturing and supplying our products to clients.

- **Led Driver Transformer**
- **Choke Core Transformer**
- **Drum Core Transformer**
- **SMPS Transformer**
- **Toroidal Transformer**
- **Electronic Transformer**
- **CFL Transformer**
- **Electronic SMPS Transformer**

Line Filter

Product Description

In order to achieve maximum client satisfaction, we have always rendered our clients with the finest range of Power Line Filter Transformer. Being a consistence performer, YMD has always focused on offering its esteemed patrons with superior quality range of line filter transformer that are manufactured using high grade quality raw material. We are counted amongst the renowned manufacturer of Line filter transformer in city and also offer our clients a range of 3 Phase Line Filter Choke and Ferrite Core Transformer. At our premises we use premium quality raw material in manufacturing line filter transformers that gives durability and longer working life to these transformers. In addition to this we are backed with the team of highly experienced and skilled professionals who conduct quality checks at each step of production to assure that we render only the best quality of line filter transformer.

Choke Coil

Product Description

We are specialized in manufacturing and supplying a quality range of Choke Coil which is widely used in various industries. The offered coil is designed and developed using premium quality raw material under the proficient guideline of our experienced professionals. We provide this coil in both standard and customized options as per our clients various specified requirements. Moreover, our esteemed customers can avail this choke coil from us at extremely affordable prices. We also have Common Mode Choke Coil, Power Choke Coil, Rf Choke Coil and Toroidal Choke Coil. These products are made in compliance to international quality standards. Our products have dimensional accuracy which is compatible with best machinery. Also, products are available at cost effective rates that suit the budgetary constraints of customers. With the painstaking efforts of our team, we are able to manage and fulfil the requirements of our customers.

- Electric Choke Coil
- Choking Coil
- Rod Choke Coil
- CFL Choke Coil
- Drum Choke Coil
- CFL Transformer Choke Coil
- CFL Choke Coil
- Power Choke Coil

Drum Coil Inductor

Product Description

We are well off manufacturers and suppliers of a wide array of Drum Choke Coil in Noida. This coil is specifically designed using optimum grade raw material that is sourced from some of the reliable vendors of the industry. Our coil is acknowledged for its high quality, durability, compact designs, high tensile strength and reliability. The offered coil is comprehensively demanded by our clients in various industrial and commercial sectors. Also, we provide this coil to our valuable clients at industry leading prices. Transformer Drum Choke Coil is used by clients for various industrial operations. Precision, accuracy, resistivity and dimensional customization are some of our key factors for which our products are acknowledged. Also the team working with us has gained specialization in their respective domains so that they can serve our clients in a best possible manner.

Lighting Transformer

EFD Transformer

Product Description

SMPS Transformers known as switched-mode power supply (also switching-mode power supply, SMPS, or simply switcher) is an electronic power supply unit that incorporates a switching regulator in order to provide the required output voltage. The switch mode transformer is used in conjunction with the switching regulator to form a switch mode power supply. We at YMD are counted among the reputed manufacturers of SMPS transformers. We also offer Switching Mode Power Supply Transformers, Industrial SMPS Transformers, Electronic SMPS Transformers and Led Light SMPS Transformers. The design of a switch mode power transformer will differ depending upon the type of circuit used. There are many variations of switching mode power supplies, but they can be narrowed down to three basic circuit configurations named as Buck, Boost, and fly back. All our products are offered to

customers after stringent quality tests and shows attributes like non-corrosive, light weight, long lasting, high performance and long performing life.

- EDR Transformer
- EFD Transformer
- Industrial ETD Transformer
- PQ transformer
- Ferrite Transformer

Mobile Charger

Product Code: MC
Brand Name: YMD

Product Description

We are a young and dynamic organization engaged in manufacturing and supplying **Mobile Charger Transformer**. To manufacture this transformer, we use finest quality materials and components. Required voltage for charging the mobile is not more than 12 volt, hence the transformer converts the high voltage into desired levels. **Mobile Charger Transformer** comes in different specifications as per the requirements of clients. We offer this transformer at affordable prices.

Features:

- Light in weight
- Easy to install
- Negligible heat loss

Further Details:

We are offering a wide range of **Mobile Charger Transformer**. The offered transformer is manufactured using exceptional quality conductive metals to avoid losses. Required voltage for charging the mobile is not more than 12 volt, hence it converts the high voltage into desired levels. Due to its optimum workability and high functionality, it is widely installed in several types of mobile chargers. We are offering this range at a nominal cost.

Key Points

- With stand 50/60 hertz voltage frequency
- Negligible heat loss
- Perfectly engineered to ensure efficiency
- Minimum order quantity: 25000

Available in following models:

- **E-16 Transformer Core**
- **E-14 Transformer Core**

Led Driver Transformer

Led Driver Transformer

Product Code: LDT

Brand Name: YMD

Product Description

Banking upon the calibre of our adept manpower, we have emerged as a superior manufacturer and supplier of wide assortment of **Led Driver Transformer**. All these transformers are designed and manufactured with the help of highly advanced production technology. Also, before the final delivery, our range of transformer is thoroughly checked on various parameters by our quality professionals. Our range of **Led Driver Transformer** is well demanded and appreciated for features such as hardness, low maintenance, corrosion resistance, and so on.

Choke Core Transformer

Choke Core Transformer

Product Code: CCT

Brand Name: YMD

Product Description

Owing to our prime vision to provide our clients with best in class products in a stipulated time frame, we have emerged as a superior manufacturer and supplier of a huge gamut of **Choke Core Transformer**. These transformers are broadly used for high frequency operations. Our offered fleet of transformer is fabricated with the help of superior quality components under the stringent vigilance of dexterous professionals. Our range of **Choke Core Transformer** is well appropriated for features like high durability, low maintenance, corrosion resistance, high customization, etc.

Drum Core Transformer

Drum Core Transformer

Product Code: DCT

Brand Name: YMD

Product Description

We are one of the leading manufacturers and suppliers of wide fleet of **Drum Core Transformer**. These transformers are manufactured by our highly competent and dexterous professionals by making use of using optimum grade materials and most progressive technology. Available in different sizes and models for clients, our range of **Drum Core Transformer** is well known and appreciated for some its unique features such as high tensile strength, light weight, best performance, and durability.

SMPS Transformer

SMPS Transformer

Product Description

Backed by a robust infrastructural set up, we have emerged as a genuine manufacturer and supplier of wide assortment of **SMPS Transformer**. Our manufactured ranges of transformers are extremely used to measure inductance and resistance at various voltages. We deliver these transformers to diverse retailers and industries. Precisely designed using high grade components which are sourced from trusted vendors of the industry, our range of **SMPS Transformer** is well acknowledged for features such as best performance, high quality, assured quality and so on.

Electronic Transformer

Electronic Transformer

Product Code: ET
Brand Name: YMD

Product Description

We are counted among some of the most promising manufacturers and suppliers of Indian domestic market. From our establishment itself we are engaged in bringing forth an exclusive fleet of **Electronic Transformer**. These comprise steroidal transformers, SMPStransformers, LED waterproof transformers, CFL transformers and many more. Our range of **Electronic Transformer** is well acknowledged by our clients due to features such as low power consumption, long-term service life, high performance, supreme quality, easy to use and cost-effectiveness

CFL Transformer

CFL Transformer

Product Code: CFLT

Product Description

Supported by a team of highly skilled and experienced team of professionals, we have emerged as a noted manufacturer and supplier of a wide fleet of **CFL Transformer**. To design and manufacture our ambit of transformer, we have installed all the needed machines and equipment's at our sound manufacturing unit. Our range of **CFL Transformer** is well demanded and appreciated for attributes such as industry leading price, low maintenance, low power consumption, high efficiency.

Electronic SMPS Transformer

Electronic SMPS Transformer

Product Code: EST

Brand Name: YMD

Product Description

We are the note-worthy manufacturer, trader and supplier of excellent quality **Electronic SMPS Transformer**. Ideal for power supply of TV, DVD, monitor, computer and other electronic equipment, this transformer is manufactured using quality approved components and ultra-modern technology at our sophisticated production unit in conformity with set industry standards. Beside this, we provide this **Electronic SMPS Transformer** in different sizes and technical specifications for our clients to choose from. Clients can avail this transformer from us at rock bottom prices

Features:

- **Rugged construction**
- **Rust proof body**
- **Long functional life**
- **Hassle free performance**

Copper Line Filter

Copper Line Filter

Product Code: LF-02

Brand Name: YMD

Product Description

We are among some of the prominent manufacturers and suppliers of a wide assortment of **Copper Line Filter**. These filters are specially designed by our highly qualified and experienced team of professionals, who leave no stones unturned when it comes to maintain optimum level of quality. Available in various sizes, designs and colours for clients, these filters are properly tested on different quality parameters by our team of professionals. Moreover, our range of **Copper Line Filter** is well appreciated for high performance, longer service life and cost-effectiveness.

Line Filters & Drivers

- **UU10.5 Driver**
- **UU10.5 Line Filter**
- **Line Filters**
- **Dt of chargers**
- **Line filters,Dts & todoroil soft ferrite core**
- **UU & UF10.5 filter**
- **UU & UF15.7 filter**
- **UU9.8**
- **UU10.5**
- **UU15**

Choke Coil

Available in various sizes, the offered Choke Coil is extensively demanded to install in various types of electric equipment's. Offered coil helps in supplying DC current while helps in flowing AC current. This coil is manufactured by our ingenious team of professionals using utmost quality raw materials and progressive techniques in adherence with set industry standards. Further, our quality inspectors test this coil on defined quality parameters to assure its precise dimensions. Our offered range comprises Electric Choke Coil, Rod Choke Coil, Drum Choke Coil, etc. Further, our valuable clients can avail this Choke Coil from us at competitive prices.

Features:

- **Used in circuits with higher frequencies**
- **Works in fluctuating power or voltage**
- **Resistance to heat and corrosion**
- **Optimum strength enhance its durability**

Electric Choke Coil

Electric Choke Coil

Product Code: ECC

Brand Name: YMD

Product Description

We are a quality driven manufacturer and supplier of Indian domestic market. From our inception itself, we are engaged in bringing forth an exclusive fleet of **Electric Choke Coil**. These coils are manufactured with the help of high grade materials and cutting-edge technology so as top ensures its flawlessness. Available in different sizes and specifications, these coils are manufactured in sync with all the set quality standards of the industry. Also, our range of **Electric Choke Coil** is well acknowledged for high performance, longer service life and cost-effectiveness.

Drum Choke Coil

Drum Choke Coil

Product Code: DCC
Brand Name: YMD

Product Description

We are a certified manufacturer and supplier of wide ambit of **Drum Choke Coil**. Our offered coils are designed and manufactured with the assistance of high grade raw materials and highly progressive technology so as to ensure its flawlessness. Available in different sizes, models, these coils cater to various industry purposes and applications. Our range of **Drum Choke Coil** is well acknowledged for features such as optimum performance, longer service life and cost-effectiveness and the likes.

Specifications:

DRUM COIL 6X8 mm	EE-10
DRUM COIL 8X10mm	EE-13
DRUM COIL 10X12mm	EE-16
DRUM COIL 12X15mm	EE-19
DRUM COIL 10X15mm	EE-20
DRUM COIL 15X22mm	

CFL Transformer Choke Coil

CFL Transformer Choke Coil

Product Code: CTCC

Brand Name: YMD

Product Description

Backed by a team of highly experienced and skilled manpower, we have emerged as a superior manufacturer and supplier of a wide assortment of **CFL Transformer Choke Coil**. To design and manufacture our range of coil, we have installed all the requisite machines and equipment's at our sound manufacturing wing. Our range of **CFL Transformer Choke Coil** is well acknowledged for features such as economical, low maintenance, low power consumption, high efficiency.

CFL Choke Coil

CFL Choke Coil

Product Code: CCC

Brand Name: YMD

Product Description

Over a long period of time, we have emerged as a major manufacturer and supplier of wide ambit of **CFL Choke Coil**. Our offered fleet of coils is manufactured using the quality assured range of raw material sourced from trusted vendors of the industry. We are backed by a team of highly dexterous team of professionals who leave no stones unturned when it comes to maintain optimum level of quality in our range of **CFL Choke Coil**.

Power Choke Coil

Power Choke Coil

Product Code: PCC

Brand Name: YMD

Product Description

Leveraging on our immense industrial experience and knowledge, we have become a pioneer manufacturer and supplier of **Power Choke Coil**. Available in different sizes, designs and colours for clients, our range of coils is strictly checked on various parameters so as to attain utmost client satisfaction. In addition to this, our range of **Power Choke Coil** is highly acclaimed for its unique attributes such as cost-effectiveness, durability, high performance, user-friendly and many more.

Coil Inductor

We are presenting unique quality Coil Inductor that includes Ferrite Coil Transformer and Drum Coil Inductor. Offered coil inductor is designed to use in different types of circuits like analog, digital, converters and many others. This coil inductor is manufactured by our adroit team of professionals using premium quality raw materials and advanced techniques in conformity with industrial quality standards. Available in different specifications, our offered range of coil inductor is widely demanded among our wide spread clientele for features like light weight, best performance, high tensile strength and durability. Clients can easily avail this Coil Inductor from us at reasonable prices.

Features:

- Available for different models of electronic devices
- High quality copper wires are used that ensures resistance to heat
- High tolerance and ability to withstand high temperature
- Seamless finish ensures easy installation

Ferrite Core Transformer

Ferrite Core Transformer

Product Code: FCT

Brand Name: YMD

Product Description

Loaded with vast industrial experience we have positioned ourselves as a prime manufacturer and supplier of wide ambit of **Ferrite Coil Inductor**. Manufactured keeping in mind all the prevailing quality standards of the industry, these inductors are used in electrical circuits to pass direct current and attenuate (suppressor limit) alternating current. Our range of **Ferrite Coil Inductor** finds their application in SMPS, converters, EMI Filtering, energy storage, RFI, and so on.

Drum Coil Inductor

Drum Coil Inductor
Product Code: DCI
Brand Name: YMD

Product Description

Leveraging on our rich industrial experience and expertise we have become a supreme manufacturer and supplier of a wide fleet of **Drum Coil Inductor**. These coil inductors are designed and manufactured by our highly qualified and skilled team of experts by using high grade materials and highly advanced technology. Available in different sizes and models for clients, our range of **Drum Coil Inductor** is widely demanded among our wide spread clientele for features like light weight, best performance, high tensile strength and durability.

Lighting Transformer

We are engaged in manufacturing and supplying Lighting Transformer without compromising on the standards of quality. Highly acclaimed in various electrical sectors, this transformer is used for supplying power to equipment's. Offered transformer is manufactured using the best quality raw materials under the vigilance of our experts at our well-equipped production unit. Our offered range includes Ferrite Transformer, Industrial ETD Transformer, PQ transformer, EFD Transformer, etc. Available in different specifications, this Lighting Transformer can be availed from us at market leading prices.

Features:

- **High tolerance and robust construction**
- **Helps in restricting any high voltage spikes and EMF**
- **Ability to withstand high temperature**
- **Accurate in dimensions which ensures simple fitting**

EFD Transformer

EFD Transformer

Price and Quantity

- **Minimum Order Quantity:** 50000
- **Unit of Measure:** Piece/Pieces

Trade Information

- **Payment Terms**
- Cash in Advance (CID), Others
- **Supply Ability**
- 50 lacks Per Month

- **Sample Available**
- Yes
- **Sample Policy**
- Free samples are available

- **Packaging Details**
- Carton packing available.
- **Main Export Market(s)**
- Asia, Australia, Central America, North America, South America, Eastern Europe, Western Europe, Middle East, Africa

- **Main Domestic Market**
- All India
